Multiple Compartment Boxes

This display is an attractive way to present food items and matches almost any environment. The bin is specially designed to fit any countertop as well as our range of furniture bases and can be stacked on top of each other. The size of the unit efficiently stores and displays a variety of food items and other types of products. The bin comes in 2 options with or without lid. The closed option bin features a hinged lid that lifts open to protect the contents from getting stale. Although intended as a food display, many retail store and convenience stores use them to showcase their items in restaurants, delis, bakeries and retail stores. We sell each bin individually or in kit format with the furniture in different color options.
